

## do your staff need new skills or a qualification

Direct Training Australia specialises in professional, results based vocational training for the following industries:

- Aged Care
- Business Services
- Children's Services
- Corporate Training
- Health Support Services
- Hospitality
- Retail Operations
- Training and Assessment
- Transport and Distribution

### Vocational Training

DTA offers a range of training programs from Certificate II to Diploma level. DTA's qualifications are compliant with the National Qualifications Training Framework. Programs are flexible with delivery either on or off-site according to workplace and student needs.

### Customised Programs

Our programs can be customised to meet individual workplace requirements including organisation objectives and skill needs. Training needs are identified via a "Needs Analysis" from which learning outcomes can be defined.

### Government approved provider

DTA is an approved provider of Government funded training programs. Students may be eligible for Australian Government incentives to fund the cost of their courses including the Australian Apprenticeship Scheme or Work Skills Vouchers.

### Qualified Trainers

Our workplace trainers ensure your employees receive one-on-one support to help them reach their study goals and provide you with an increased skill base. Trainers are qualified and have industry experience in the areas they teach, ensuring real results for students.

### Recommendations

*"... the training had an enormous impact on the self-confidence of our staff in handling the pressures of a demanding industry..."* Cootes Holdings

*"... VECCI referred us to Direct Training Australia who were supportive, flexible and thorough... I strongly recommend DTA to any employer wanting to pursue training."* Martin & Pleasance

*"...each day was a resounding success and memorable occasion for all of our staff. The feedback from our staff was excellent..."* Bruno Distributors

**...train for your future success with DTA**

## Key benefits of training

- Trained staff are more confident in their abilities, productive and are able to cope with change and innovation
- Maintain a competitive edge through an increased skill base
- Increased workplace safety and compliance
- Enable reporting capability to ensure consistent implementation of “best practice”
- Clear and efficient direction ensuring staff are prepared and inspired
- Reduced staff turnover through better human resource management

## Reasons to choose DTA

- “Needs Analysis” performed to identify skill shortages and gaps in staff competencies
- Training outcomes and deliverables designed using the “Needs Analysis”, and organisational guidelines and objectives
- Wide range of training modules facilitates customisation to your needs
- All modules are Nationally Recognised
- Specific programs can be developed in consultation with Industry experts when training does not need to be Nationally Recognised
- Continuous enrolments provides flexibility in training periods
- On or off-site training, at times that suit you
- Hands-on, real skills training to maximise learning effectiveness
- Reports on outcomes of training session to identify strengths and weaknesses
- Organisational speakers incorporated into the training sessions
- Mentoring guideline for supervisors and managers
- Student database maintains real time records and reports
